RESPONSE TO THE NOTICE OF NON-COMPLIANT AMENDMENT
MAILED JANUARY 10, 2003

In response to the Notice of Non-Compliant Amendment mailed January 10, 2003, please find attached the following corrections.

In the Abstract of the Disclosure:

Please replace the Abstract of the Disclosure with the following:

C1

--A method and apparatus for closed loop, automatic processing of typical financial transactions, including loans, setting up checking, savings and individual retirement accounts, obtaining cashier's checks, ordering additional checks, issuing credit and debit cards, wire transferring money, and so on. The transactions are provided from a kiosk and controlled by a computer controller interacting with the consumer. In the case of loans, a computer controller helps the consumer in the completion of the application, performs the underwriting, and transfers funds. The computer controller obtains the information needed to process the application, determines whether to approve the loan, effects electronic fund transfers to the applicant's deposit account and arranges for automatic withdrawals to repay the loan. The computer controller reviews documentation requirements including consumer lending and other required documentation with the consumer and obtains acknowledgment of acceptance of terms by having the consumer sign an electronic signature pad.--

Attached is a marked-up version of the amendments made to the application by the current response. The attachment is captioned "VERSION WITH MARKINGS TO SHOW CHANGES MADE."
